APPLICATION FOR EMISSION REDUCTION CREDITS

Please provide all pertinent facility information requested in the application. Incomplete applications are not acceptable. Emission reduction credits are only allowed if the emission reductions meet the following five criteria. Reductions must be "real", "quantifiable", "permanent", "enforceable" and "surplus". Credits are based upon actual emissions from the two calendar years immediately preceding the application date. If you have any questions regarding these criteria contact the District at the number noted above. This form must be received and accepted, and application fees paid, prior to credits being issued.
